City
**Reducing
Conflict**

Parents and carers play a critical role in giving children the experiences and skills they need to succeed. However, studies have found that children who are exposed to frequent, intense, and poorly resolved conflict can be negatively affected in the short and longer term. It can impact on children's mental health, their early emotional and social development, their educational attainment, and employability - limiting their chances to lead fulfilling, happy lives.

The 'Leicester City | Reducing Conflict' programme - funded by the Department for Work and Pensions (DWP) and delivered on behalf of Leicester City Council - has been created to support professionals that work with Leicester City children and / or families.

Through a multi-layered approach to professional development, every professional can benefit from one or more of our **free** sessions that aim to increase knowledge, skills and confidence in: identifying families experiencing conflict, delivering interventions, providing other support to reduce conflict, and promoting the funded services that families can be signposted / referred to.

Visit our Eventbrite page to sign up to sessions: <http://leicester-city-reducing-conflict.eventbrite.com>

Our monthly online **Awareness Training** sessions are essential for any professional that works with Leicester City children and / or families. This training will help you understand the importance of the 'reducing conflict' agenda and acquaint you with best practice on how to recognise and escalate conflict matters.

Our one-off online and face-to-face **Skills and Confidence Training** sessions are essential for any frontline practitioner that works with children and / or families who experience conflict. These sessions will help you develop your skills and confidence in working with conflict areas and provide practical strategies you can apply to the challenges you face in your role.

Our online **'Meet the Service' sessions** are essential for any professional that works with children and / or families interested in learning more about the 'conflict pathway'. These sessions offer you the opportunity to hear from, and ask questions of, the various public and voluntary sector services which support the 'reducing conflict' agenda.

If you'd like to hear more about the programme please visit our webpage or get in touch:
